

Crashing Down

David Rovics

It can hap-pen in a mo-ment Some-times it does When what
could be is And what should-n't be was There are times when you got -
ta stand stea - dy There are o - ther times when you got - ta be read -
y When it all When it all When it
a - l - l When it all comes crash - ing down

The window can open
Seems so wide but
You can never tell
When it's gonna slam shut
One day you're a target
On the firing ranges
The next day all of a sudden
Everything changes

Chorus

So easy to feel
Like you're standing still
Then the scene is revealed
And you're on top of the hill
At that point you know
You can let it go by
Or spread your wings
And take to the sky

Chorus

When what you know
May all be true
But sometimes all that's real
Is what you do
Some moments are coming
Others have came
And then there are those
When you've just gotta take aim

Chorus
