Truman said he wouldn't kill civilians  
And he didn't want to hurt nobody's mom  
But as soon as he had the opportunity  
He went and dropped the fucking atom bomb  
Kennedy, he said he was a man of peace  
But with the battle plan unfurled  
He sent the US Navy to the Cuban shore  
And then he just about blew up the world

*Chorus*

Then there is that guy we knew as LBJ  
He was the one for "great society"  
He sent his Air Force down to blow up Vietnam  
To make sure that those folks were good and free  
Jimmy was the one who talked of human rights  
Human rights for everybody, ha ha ha  
He was opposed to dictatorship and torture  
That's why he loved Suharto and the Shah

*Chorus*

Bill was from a little town in Arkansas  
He was just another Joe  
That's why when all the people said don't do it  
He went and signed the WTO  
Some people might think I'm cynical  
And I don't know why that would be  
So even though they voted for the war  
Now I'm going for Barack and Hillary

*Chorus*
