

No Fracking Way

David Rovics

There was a knock one morn-ing A man was stand-ing at my door He said

hel-lo I'm from Hal-li-bur-ton Have you heard of us be-fore We'd like to lease your back-yard To

drill for nat-'ral gas It's called hy - drau - lic frac - tur - ing And it is the ve - ry pass For a

clean e-ner-gy fu-ture A - bove the Mar-cel-lus Stone Plus we'll give you lots of mon-ey And a

free mo-bile phone I said you are a cor-por-ate crook I don't be-lieve the things you tell And you can

drive right off my pro-per-ty And then go straight to hell No frack-ing way No frack-ing

wa - ay I don't trust cor-por-ate sales - men What - e - ver they may say No frack-ing

No Fracking Way

way No frack - ing wa - ay No frack - ing way

My neighbor was out of work and things were looking grim
 So when the fracking guy came knocking he had better luck with him
 The company said don't worry, everything will be just fine
 So just sign your name right here, sir, on this dotted line
 Pretty soon the water was tasting pretty dire
 One day I lit a match and the water caught on fire
 I thought about a lawsuit, then stumbled upon the fact
 That fracking is exempted from the Clean Water Act

No fracking way! (2x)
Is that how democracy works here in the USA
No fracking way! (3x)

As if the situation weren't sufficiently unattractive
 We tested the water and found it was radioactive
 Now my property is worthless and there's a tumor in my brain
 Half of my neighbors are sick, the rest are just in pain
 Maybe I should take the money, move off to live somewhere
 But all the places I look at, they're fracking there
 Our choices now are simple, lose that which we hold dear
 Or communicate the message in a way that's unstopably clear

No fracking way! (2x)
Tell these frackers to frack off, both tomorrow and today
No fracking way! (3x)
