And we'll lie about the missiles and the nuclear research
 We'll lie about uranium
 We'll build military bases and smile for reporters
 As we give away bubble gum
 And we'll lie about bin Laden and his connections with the Saudis
 And we'll lie about 9-1-1
 And we'll lie about the Baathists and their connections to Al Qaeda
 Because we know there's none

Chorus

And we'll lie about the North Koreans and we'll lie about Iran
 And don't mention Israel
 Keep those nuclear weapons out of this song
 And it will all hold together swell
 And now we'll liberate these people, we'll liberate their money
 We'll liberate their soil
 We'll liberate their airports, we'll liberate their harbors
 And we'll liberate their oil

Chorus
