

Pirate Santa

David Rovics

San-ta and his elves worked on the North Pole Mak-ing toys to take to kids a-round the
Earth They worked hard to try and fill the or - ders Then they
flew the toys from Port-land out to Perth San - ta sad-dled up his rein-deer
And with the skull and bones un - furled went and joined the pi - rates For the
good of the chil - dren of the world

Then the whole economy collapsed
And everyone was getting fired
Santa said it's time to close the workshop
Santa said more urgent measures are required

Chorus

Santa flew down to the Gulf of Aden
Waited for a good ship to attack
The crew gave up without a fight
Santa put the toys all in a sack
Santa headed to Moldova
Gave out everything and then
He flew back to the Gulf of Aden
To go and do it all again

Chorus

The world's navies tried to catch him
But Santa always got away
Like Robin Hood with super powers
There upon his flying sleigh
Eventually they got him In a helicopter raid
But not before he inspired many more
To take up the pirate trade

Chorus
