

Together

David Rovics

Voice

I was hang - ing with my friends We were by a lake

It seemed like a per - fect place to take a lit - tle break We wan - dered 'round the lake Then we

came u - pon a boat We thought that we should just See if it might float* If we

all push to - ge - ther If we all push to - ge - ther If we all push to - ge - ther We can

bring that boat to shore

I was trying hard to push it
But that boat wouldn't budge
Then two of us were pushing it
Trying very hard to trudge
But that boat wasn't moving
Til I came up with a plan
We'll all push it in together
Together, yes we can

If we all push together (3x)
We can take that boat to sea

We got that boat into the water
But when I tried to make it go
That thing just went in circles
No matter how much I did row
But when we got it all together
With two oars on either side
We were really cruisin'
We had such a good old ride

When we all row together (3x)
We can take that boat to sea

We came upon an island
And we thought we'd spend the night
Go back home the next day
By the morning light
Now we knew what to do
To bring the boat back onto land
We all grabbed the rope
And pulled together hand in hand

If we all pull together (3x)
We can take that boat to shore
